# 公司简介 COMPANY PROFILE

上海汇得科技股份有限公司成立于2007年6月,最早可溯源至1997年创建的上海汇得化工有限公司,是一家集设计、研发、生产、销售和服务于一体,专业制造革用聚氨酯(PU)树脂、聚氨酯弹性体相关产品等系列新材料的科技型集团公司。经中国证监会核准,公司股票于2018年8月28日在上海证券交易所挂牌上市,股票代码603192,股票简称“汇得科技”。

汇得科技作为国内革用聚氨酯树脂行业的领先企业,建有独立的技术研发中心,拥有一支由国内外专家领衔,由博士、硕士和本科生组成的技术研发队伍,到目前为止已获得授权发明专利26项,有9个产品列入上海市高新技术成果转化项目。通过技术创新,不断实现高新技术成果转化,产品品质和技术达到国内一流、国际领先的水平。特别是按照“源头控制、低碳环保、节能减排”的要求,研发出了无溶剂和水性聚氨酯树脂等环保型产品,成功探索出一条产品转型升级的方向,促进了行业的可持续发展。

Shanghai Huide Science & Technology Co., Ltd. was established in June 2007 and can be traced back to the beginning of Shanghai Huide Chemical Co., Ltd. in 1997. It is a technology group corporation integrating design, R&D, production, sales and service in one and specializing in the production of synthetic material polyurethane (PU) resin, polyurethane elastomer and related products and materials. Approved by the China Securities Regulatory Commission (CSRC), the company's shares were listed on the Shanghai Stock Exchange on August 28, 2018. The stock code is 603192 and the abbreviated form of the company name is "Huide Technology". As a leading enterprise in polyurethane resin material in China, Huide Technology has set up an independent technology R&D center with a research and development team led by international and domestic outstanding professionals and composed of doctors, masters and undergraduates. So far 26 invention patents have been authorized and 9 products have been listed in Shanghai new and high technology transformation achievements. We are constantly realizing the transformation of high-tech achievements by technological innovation. At the same time, our products' quality and technology have reached a standard of first class in China and leading level internationally. In particular according to the requirements of "source control, low carbon and environmental protection, energy conservation and emission reduction", we have developed several eco-friendly products such as solvent-free and water-borne polyurethane resin and so on. We also have successfully explored a direction of transformation and upgrading of product and have promoted the sustainable development of the industry.

### The company structure chart of Huide

汇得科技位于杭州湾北岸的上海精细化工产业园，旗下拥有福建汇得新材料有限公司、上海鸿得聚氨酯有限公司、常州普菲特化工有限公司、上海汇得国际贸易有限公司和常州韵祺运输有限公司等五家全资子公司，业务范围涵盖生产制造、国内贸易、国际贸易和物流运输等领域。

Huide Technology is located in Shanghai Fine Chemical Industrial Park in the north of Hangzhou Bay. Huide owns five wholly-owned subsidiaries of Fujian Huide New Material co., LTD., Shanghai Hoard Polyurethane Co.,Ltd., Changzhou Pufeite Chemical Co.,Ltd., Shanghai Huide International Trade Co.,Ltd. and Changzhou Yunqi transportation Co., LTD.. Our business covers manufacturing, domestic trade, international trade, logistics, transportation and so on.

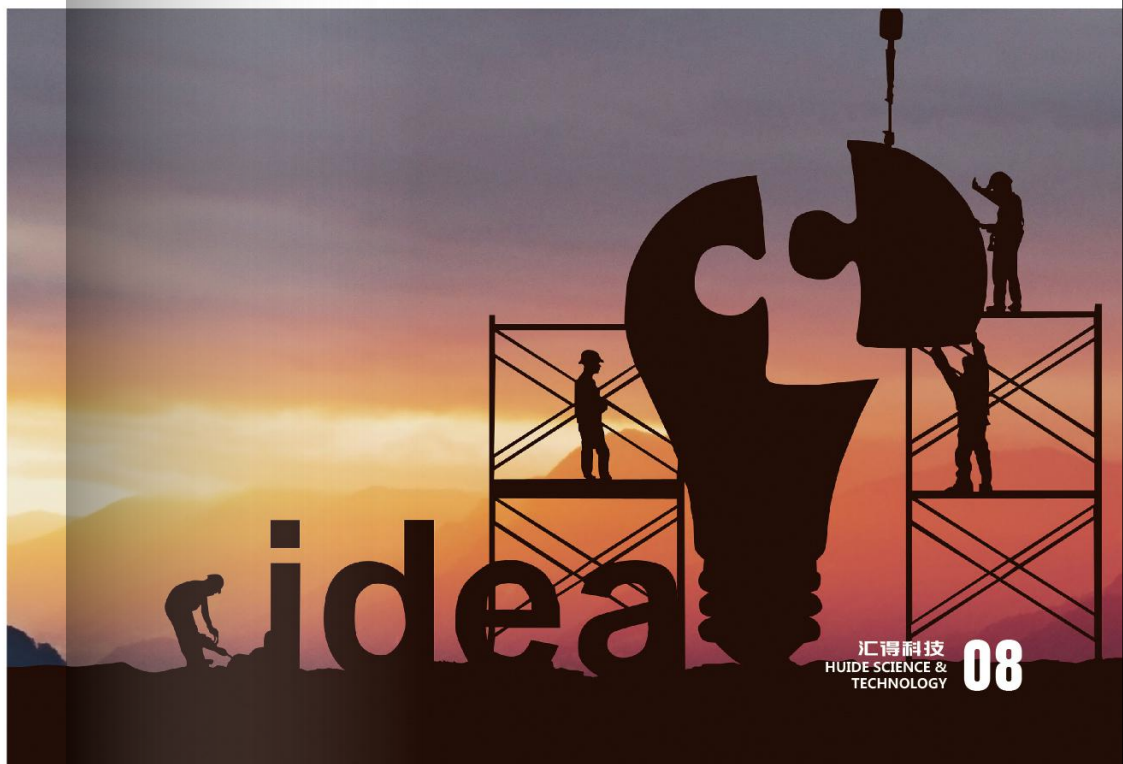

## 汇得价值观 VALUE ORIENTATION OF HUIDE

汇人心、聚诚信、图革新  
GATHER PUBLIC FEELINGS,  
COLLECT INTEGRITY,  
PURSUE INNOVATION

面对瞬息万变的市场，汇得科技秉承自身优势，坚持以市场为主导，以人才为根本，产业经营和品牌经营相结合，实施以技术创新为中心，观念创新为先导，管理和机制创新为保障的创新工程，努力成为具有持续竞争优势的国际聚氨酯树脂行业的领跑者。

When facing the rapidly changing market Huidе in accordance with its own advantages is insisting on taking market as the leading factor, taking talents as the fundamental, combining industrial management with brand management. Huidе is carrying out the innovation project with technological innovation as the core, idea innovation as the forerunner, management innovation as the foundation and mechanism innovation as the guarantee. Huidе is striving to become a top runner with sustainable competitive advantage in international polyurethane resin industry.

## 公司荣誉和证书 HONORS AND CERTIFICATES

公司通过了ISO9000、ISO14000、OHSAS18000三体系认证和清洁生产审核验收，先后获得了上海市高新技术企业、上海市企业技术中心、上海市科技小巨人企业、上海市五星级诚信创建企业、上海市名牌产品、上海市著名商标和上海市专利试点企业荣誉称号。

Huide has passed the certification of ISO9000, ISO14000, OHSAS18000 system and the clean production audit and acceptance. Huide has successively won the Shanghai High and New Tech Enterprise, Shanghai Enterprise Technological Center, Shanghai Tech Little Giant Enterprise, Shanghai Five-star Integrity Enterprise, Shanghai Famous Brand Product, Shanghai Famous Trademark and Shanghai Patent Pilot Enterprise and other honorary titles.

## 科研团队及成果 Research team and achievements

汇得科技拥有70人的独立科研团队，其中包括博士、硕士16名，并聘请国内外专家、教授为技术顾问，与之建立了长期合作关系。汇得科技目前已获得26项授权发明专利，其中有9个产品已列入上海市高新技术成果转化项目。

Huide has an independent research team of 70 people. There are 16 doctors or masters as well as experts and professors employed from domestic and overseas as technical consultants. Huide has established a long-term cooperative relationship with these experts and professors. At present Huide has obtained 26 authorized invention patents among which 9 products have been listed in Shanghai new and high technology transformation achievements.

## 技术开发及创新能力 Technological development and innovation capability

汇得拥有一支朝气蓬勃、勤勉务实的高素质技术人才队伍，拥有完善的技术与科研开发体系，具备了较强的科研开发与技术创新能力，使汇得科技在聚氨酯技术的开发研究、产业化生产和产品应用研究方面始终处于较高水准。

Huide owns an energetic, diligent and pragmatic team of high-quality technical personnel, a well-established system of technology research and development and a strong capacity of scientific research and technological innovation. Based on these Huide has always been at a high level in the development and research of polyurethane, industrial production and application research.

## 研发宗旨 Research and development objective

汇得人秉承“汇人心、聚诚信、图革新”的价值观，坚持以技术为核心，以不断创新的技术和长期稳定的品质为客户创造价值，探求长期的共同发展之路。

In accordance with the value orientation of “Gather public feelings, collect integrity, pursue innovation”, we insist on taking technology as the core, creating value for customers with constantly innovative technologies and long-term stable quality in purpose of seeking a long-term path of common development.

## 革用聚氨酯树脂 POLYURETHANE RESIN FOR SYNTHETIC MATERIAL

革用聚氨酯树脂主要用于生产聚氨酯合成革，将革用聚氨酯通过涂覆或含浸等工艺与基布复合成型生产出多样化的聚氨酯合成革。汇得科技生产的革用聚氨酯树脂包括：无溶剂、超纤、水性、干法、湿法等十七大系列、500多个品种的产品。汇得科技的产品广泛应用于PVC人造革，PU合成革，超细纤维革及各种纺织复合材料等众多产品中。

Polyurethane resin for synthetic material is mainly used for producing polyurethane synthetic material which can be produced by combining and molding Polyurethane resin for synthetic material and ground cloth through coating or impregnation. Polyurethane resins for synthetic material produced by Huide include 17 series and more than 500 varieties of products such as solvent-free, micro fiber, water-borne, dry, wet and so on. Huide Technology's products are widely used in many products such as PVC synthetic material, PU synthetic material, micro fiber synthetic material and all kinds of textile composites.

## 聚酯多元醇 POLYESTER POLYOL

聚酯多元醇包括常规聚酯多元醇、聚己内酯多元醇和聚碳酸酯二醇，它们含酯基或碳酸酯基，但实际上通常所指的聚酯多元醇是由二元羧酸与二元醇等通过缩聚反应得到的聚酯多元醇。

汇得科技生产的聚酯多元醇产品广泛应用于车用聚氨酯树脂、涂料、胶粘剂以及弹性体等产品中。

Polyester polyols include conventional polyester polyols, polycaprolactone polyols and polycarbonate diols. They contain esters or carbonates. However, in fact the commonly referred polyester polyols are obtained by polycondensation from binary carboxylic acids and diols. The polyester polyol products manufactured by Huide are widely used in the products such as polyurethane coatings, binders and elastomers.

## 弹性体原液 ELASTOMER SOLUTION

聚氨酯弹性体原液,即羟基组份与异氰酸酯组份计量混合反应定型成聚氨酯弹性体。具有良好的物理性能,被广泛地用于高端功能性合成革、鞋材(鞋底料)、电缆、管材、汽车、航空、医疗、薄膜等众多行业。

Polyurethane elastomer solution is obtained from the mixture of hydroxyl component and isocyanate component by measuring, reaction and curing. Because its physical property is good, it is widely used in high-end functional synthetic material, footwear (sole material), cable, pipe, automobile, aviation, medical treatment, film and many other industries.
